This Notice Applies To Your Vehicle, Vehicle Identification Number:

Dear Maserati Customer:

This notification is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Maserati S.p.A. and Maserati North America, Inc. have decided that a defect that relates to motor vehicle safety exists in model year 2014, 2015, 2016 and 2017 Maserati Quattroporte, Ghibli and Levante vehicles.

Maserati S.p.A. has determined that the above described vehicles were potentially manufactured with an incorrect seat wiring harness layout with the possibility of the seat wiring harness rubbing against metal points on the seat/seat frame assembly. Through normal seat adjustment operation, and over time, this can lead to an inoperative seat adjustment system, and in rare cases, a potential risk of fire due to an electrical short to ground between the seat wiring harness and the seat adjustment motor assembly.

The proposed remedy is a check, and if necessary re-route the harness, or replacement of the seat wiring harness on the affected vehicles. The remedy will be performed free of charge to the vehicle owner. Since your vehicle is among those that may be affected by the above condition, we ask you to contact any Authorized Maserati Dealer in order to arrange for this recall action to be performed to your automobile. The remedy may take a few hours to complete. Please prepare to leave your vehicle with the dealership to allow the dealer to complete your repairs. **By the time you receive this recall notification letter, the Authorized Maserati Dealers will have been supplied with the necessary instructions and components to perform the recall.**
