**Subject: Safety Recall 47N3 – Brake Lines
Certain 2017 Model Year Volkswagen Passat**

Dear Volkswagen Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Volkswagen has decided that a defect, which relates to motor vehicle safety, exists in certain 2017 model year Volkswagen Passat vehicles. Our records show that you are the owner of a vehicle affected by this action.

What is the issue? Affected vehicles may slowly leak brake fluid. After a period of time, the brake fluid low warning light may illuminate. If the warning light is ignored, brake power may diminish on the affected brake circuit. Reduced braking power may lead to extended stopping distance and could contribute to a rear end crash.

What will we do? To correct this defect, your authorized Volkswagen dealer will replace the affected brake lines on your vehicle. This work will take about one day to complete and will be performed for you free of charge.

What should you do? Please contact your authorized Volkswagen dealer without delay to schedule this recall repair. For your convenience, you can also visit www.vw.com and click on the "Owners" link to locate a dealer near you and schedule this service online.

Precautions you should take Affected vehicles can continue to be driven as usual, but if the brake fluid low warning light illuminates, contact your nearest authorized Volkswagen dealer or qualified workshop without delay in order to have your vehicle inspected/repaired.
