Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2017 E-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

On certain 2017 E-Class vehicles, the front passenger Occupant Classification System control unit may have been incorrectly installed. As a result, the front passenger seat occupant may be misclassified as a child seat. As a consequence, the front passenger airbag will be deactivated. In this case, the passenger front airbag will not deploy in the event of a crash. If the passenger front airbag does not deploy as intended in the event of a crash, it can increase the risk of an injury.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will check the routing of the pressure hose for the seat occupancy detection control unit and replace the pressure hose and seat occupancy detection mat if necessary. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time is approximately **30 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

What should YOU DO?

To find the most convenient authorized Mercedes-Benz dealer from your smartphone, scan the QR code to the left.
