

**FOLLOW-UP OWNER NOTIFICATION**  
**NOTIFICACIÓN DE SEGUIMIENTO PARA DUEÑO**

**NHTSA RECALL 17V-144**

Dear Nissan Versa Sedan owner:

This second notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety, exists in certain Model Year 2012 Nissan Versa Sedan vehicles. Our records indicate you own or lease a Nissan vehicle subject to this recall as identified by the Vehicle Identification Number (VIN) on the inside of this notice.

**Reason for Recall**  
***Motivo del Retiro***

Nissan previously sent you a letter in May 2017 explaining that your Model Year 2012 Nissan Versa Sedan may have been equipped with side and side curtain air bag impact sensor connectors that may degrade over time. If this condition is present and a vehicle door is slammed, it may increase the risk of the curtain air bag, seat-mounted air bag and seat belt pretensioner deploying unexpectedly; which could cause injury to a passenger seated inside the vehicle.

**What Nissan Will Do**  
***Qué Hará Nissan***

Parts are now available to repair your vehicle. Your Nissan dealer will install a new jumper harness kit (with Tin plated connection terminals) on the main body harness and will replace the satellite sensor with a new one (applied to both LH and RH sides). This repair will be free of charge and should take about three (3) hours to complete. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

**What You Should Do**  
***Qué Debes Hacer***

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. Please bring this notice with you when you keep your service appointment.
