IMPORTANT SAFETY RECALL

Instrument Panel Cluster Software Update

Dear [Name],

This notification is being sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA has decided that certain [2017 Model Year FIAT 500X] vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 138 – Tire Pressure Monitoring Systems. It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The Instrument Panel Cluster (IPC) software on your vehicle ^[1] may require updates. The IPC may not provide an indication of low tire pressure when the IPC is not set to the Tire Pressure Monitoring System (TPMS) menu. **Driving a vehicle with low tire pressure could result in a sudden loss of tire pressure, which may cause a crash without warning.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE

FCA will repair your vehicle ^[2] free of charge (parts and labor). To do this, your FIAT Studio will inspect the IPC software version and updated the IPC software as required. In addition, your FIAT Studio will require your vehicle for proper check-in, preparation, and check-out during your visit. Your time is important to us; please be aware that these steps may require more time. The estimated repair time is one hour. We recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.
