**IMPORTANT SAFETY RECALL 17502  
NHTSA RECALL NO. 17V-174**

**MAY 2017**

This notice applies to your vehicle identified on the enclosed card.

Dear INTERNATIONAL® Customer,

This notice applies to your vehicle identified on the enclosed card. This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Navistar has decided that a defect which relates to motor vehicle safety exists in certain 2015 thru 2018 LoneStar®, LT®, ProStar®, and RH® model trucks built 5 May 2015 thru 12 January 2017 with Battery Box feature code 08XJZ, 08XHJ, 08XHk, or 08XHL and Cab feature code 16AUX, 16AUM, 16AUN, or 16AUP.

**REASON FOR THIS RECALL**

The air dryer mounting bracket may fracture, which could cause the air dryer to separate from the vehicle frame with possible airline separation from the dryer, resulting in air system leaks or loss of air pressure to the brake system.

**RISK TO MOTOR VEHICLE SAFETY**

Airline separation from the dryer, depending on which line separates, could cause loss of air in the brake system or increased stopping distances which could increase the risk of a crash.

**DEFECT REMEDY**

The repair will involve replacement of the air dryer mounting bracket with a bracket made of heavier gauge steel and thicker gusset. Dealers have parts and instructions to repair your vehicle. The repair will be performed free of charge and take approximately 3 to 4 hours to complete.
