MY2013-2017 XFC (195h) on-road Light Duty Truck
HV Motor Assembly Replacement HNTSA 17V-201 Hino AA6N0
IMPORTANT SAFETY RECALL
This notice applies to your vehicle: VIN :JHHHPM

Dear Hino Truck Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Hino has decided that a defect, which relates to motor vehicle safety, exists in certain 2013 - 2017 XFC (195h) trucks. In May 2017, you received an interim notice informing you of a safety issue with your vehicle. A permanent repair is now available. This notice is being sent to you because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

What is the Condition?

The clutch drum spline of the front module of the Hybrid Vehicle (HV) motor may wear out. Because the wear resistance of the drum spline is insufficient, the drum spline may deteriorate due to torque variation caused by sympathetic vibration while driving, or as a result of PTO operation. If the clutch drum spline wears out, the vehicle will lose the ability to move under its own power, increasing the risk of a crash.

What will Hino do?

Please make an appointment with your authorized Hino Dealer to have the remedial work performed. This repair will be performed at **NO COST** to you.

What should you do?

This is an important Safety Recall
Please contact any authorized Hino dealer to schedule an appointment to have the remedial work performed as soon as possible.
HV Motor will be replaced as an assembly in order to correct the problem. This will take will take approximately 8 hours.

You do not need an owner letter to have this recall completed; however, to assist the dealer in confirming vehicle eligibility, we request that you present this notice at the time of your service appointment.
