# IMPORTANT SAFETY RECALL

This notice applies to your vehicle, VIN: XXXXXXXXXXXXXXXXXXXX

Dear Hyundai Elantra owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2017 Elantra sedans produced beginning on December 22, 2016 through December 31, 2016. Our records indicate that you own or lease the vehicle identified by the VIN on this notice.

**What is the problem?**

- The subject vehicles are equipped with electronic power steering (EPS). The EPS motor connector may have been damaged during assembly at the supplier preventing a proper connection to the electronic control unit. If this condition exists, an indicator lamp is illuminated in the instrument cluster and steering assist is no longer provided. Steering control can be maintained; however, the vehicle will revert to a manual steering mode requiring greater driver effort, particularly at low speeds. This could result in an increased risk of a crash.

**What will Hyundai do?**

- Your Hyundai dealer will replace the EPS motor in your vehicle. This procedure will be performed at no charge to you. The actual time required to perform the procedure should be less than 1 hour, however your vehicle may be needed longer; therefore, we recommend scheduling a service appointment to minimize inconvenience.

**What should you do?**

This is an important Safety Recall

- Schedule a service appointment at your local Hyundai dealer.
- If the EPS warning light illuminates and you notice a loss of power steering assist, you may request your vehicle be towed to the nearest Hyundai dealer at no cost to you by contacting Hyundai Roadside Assistance at 800-243-7766.
