IMPORTANT SAFETY RECALL

See enclosed VIN list.

Subject: FCCC Motorhome Brake Lights & Towed Device Brakes (Straight Pedal)

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler Trucks North America LLC, on behalf of its wholly owned subsidiary, Freightliner Custom Chassis Corporation, has decided that a defect which relates to motor vehicle safety exists on specific Freightliner Custom Chassis XCL, XCM, and XCR motorhome chassis manufactured December 21, 2012, through December 22, 2015.

On certain motorhome chassis equipped with a heavier adjustable foot pedal, the brake activation signal to the brake lights and to certain towed devices may not deactivate when the motorhome service brakes are released. This may cause the motorhome brake lights to potentially remain illuminated, and additionally may cause the brakes on the towed device to remain engaged depending on brake configuration of the trailer. A towed device with incorrectly operating brakes could increase the risk of a crash.

To remedy the issue a new torsion spring will be added to the pedal assembly to improve the pedal return.

Please contact an authorized Daimler Trucks North America dealer to arrange to have the recall performed and to ensure that parts are available at the dealership. To locate an authorized dealer, search online at www.DaimlerTrucksNorthAmerica.com. The Recall will take approximately one hour and will be performed at no charge to you.
