Dear Slingshot Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. The Slingshot Division of Polaris Industries Inc. has decided that a defect which relates to motor vehicle safety exists in some 2015-2017 Slingshot vehicles. Our records indicate that you have purchased a potentially affected vehicle.

The reason for this recall:

Certain replacement swingarms may have been assembled without grommets ①. Swingarm grommets keep debris and moisture from entering the swingarm casting. Without the swingarm grommets properly installed, contamination of the rear speed sensor may disable the ABS and Traction Control, increasing the risk of a crash.

What Polaris and your dealer will do:

Your Polaris Slingshot dealer has been authorized to inspect the swingarm and install grommets, if required.

What you should do:

Please contact your local Slingshot dealer at your earliest convenience to schedule an appointment to have the bulletin repair performed free of charge. When making contact with your dealer, discuss their schedule and how long they will need to keep your vehicle to complete the recall.

If you have questions or if you need more information:

The Slingshot Consumer Service Department cannot change ownership information without identification. For more information regarding reimbursement please contact your Slingshot dealer or the Slingshot Consumer Service Department using the information above.
