Aviso de Revisión de Seguridad 17S16**

2017 MKZ
Your Vehicle Identification Number (VIN):

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. The Lincoln Motor Company has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the VIN shown above. We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

- What is the issue?** On your vehicle, the studs that retain the transmission torque converter to the engine may have been improperly welded.
- What is the risk?** Improperly welded studs may result in the loss of transmission function and loss of motive power if the studs detach from the torque converter, increasing the risk of a crash. Should the vehicle lose transmission function while driving, the power steering, power brakes, electrical systems and restraint systems will still operate normally, and the transmission park function is not affected.
- What will Lincoln and your dealer do?** The Lincoln Motor Company has authorized your dealer to replace the torque converter free of charge (parts and labor).
- How long will it take?** The time needed for this repair is less than one day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.
- What should you do?** Please call your dealer without delay and request a service date for Recall 17S16. Provide the dealer with your VIN, which is printed near your name at the beginning of this letter.

Lincoln owners of 2017 Model Year or later vehicles affected by this recall have the option of requesting complimentary Pickup & Delivery service with a Lincoln vehicle for use during service. Please request Lincoln Pickup & Delivery through your dealership if you would like to take advantage of this option.
