**IMPORTANT SAFETY RECALL 17505
NHTSA RECALL NO. 17V-579**

This notice applies to your vehicle identified on the enclosed card.

Dear IC Bus Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

IC Bus has decided that a defect which relates to motor vehicle safety exists in certain 2018 and 2019 CE school bus models built 7 July 2017 thru 2 August 2017 with hydraulic brakes.

REASON FOR THIS RECALL

The hydraulic brake drop hose to the brake calipers on the steer axle wheel ends may be improperly routed resulting in possible contact with the tire.

RISK TO MOTOR VEHICLE SAFETY

Contact between the drop hose and the tire may cause abrasion damage to the hose and a possible hydraulic leak resulting in a pull condition during brake application or an unexpected increase in stopping distance and may contribute to a vehicle crash.

DEFECT REMEDY

The repair will involve correctly orienting and routing the drop hoses to the steer axle brake calipers and replacing any drop hose found with abrasion damage. Dealers have parts and instructions to repair your vehicle. The repair will be performed free of charge and take approximately 45 minutes to 1 hour 45 minutes to complete.

ACTIONS YOU SHOULD TAKE

OCTOBER 2017

If you own this vehicle, please schedule an appointment with any IC Bus dealer to have your vehicle repaired. You can find your nearest dealer by calling 1-800-448-7825 or by using the dealer locator at <http://www.icbus.com>.
