Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2014-2017 B-Class electric, MY 2012-2018 C-Class, MY 2012-2017 E-Class, MY 2014-2018 CLA, MY 2015-2018 GLA, MY 2016-2018 GLC, and MY 2013-2015 GLK-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

On certain Model Year ("MY") 2014-2017 B-Class electric, MY 2012-2018 C-Class, MY 2012-2017 E-Class, MY 2014-2018 CLA, MY 2015-2018 GLA, MY 2016-2018 GLC, and MY 2013-2015 GLK-Class vehicles, an electrostatic discharge, when combined with a broken steering column module clock spring and an insufficient grounding of the steering components, could lead to an inadvertent deployment of the driver airbag. An inadvertent driver airbag deployment may cause a risk of injury to the driver and might increase the risk of a crash.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will add sufficient grounding to the steering components on the affected vehicles. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **30 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.
