Dear «Owner\_name»:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Thor Motor Coach (TMC) has decided that certain 2017 & 2018 Model Year motorhomes fail to conform to the requirements of Federal Motor Vehicle Safety Standard (FMVSS) No. 120, "Tire Selection and Rims and Motor Home/Recreation Vehicle Trailer Load Carrying Capacity Information for Motor Vehicles with a GVWR of more than 4,536 kilograms (10,000 pounds)." As a result, TMC is conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

***Reason for  
this recall***

It has been decided that on certain 2017 & 2018 Axis, Challenger, Chateau, Four Winds, Hurricane, Miramar, Palazzo, Tuscany, Vegas, Venetian, and Windsport motorhomes, the hot water and/or fresh water tank capacity is incorrectly listed on the OCCC Label. The incorrect information on the label could lead to overloading of the tank, which could result in poor vehicle handling. This could result in an accident, causing injury and/or property damage.

***What we  
will do***

TMC has enclosed the correct label to remedy the non-compliance.

***What we need  
you to do***

At your earliest convenience, remove the existing OCCC label and apply the new one in its place. This label is affixed to the interior side of the forward-most door on the passenger side (directly below the window screen) for Class A motorhomes, or on the front door jamb for Class C motorhomes. If you have questions concerning this recall or if you need any assistance, please contact the **TMC Warranty/Service Department** by mail at TMC, P.O.
