Dear Victory Motorcycle Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Victory Motorcycle has decided that a defect which relates to motor vehicle safety exists in 2010-2017 Victory (Cross Country, Cross Country Tour, Cross Roads, Magnum and Hard Ball) motorcycles. Our records indicate that you have purchased a potentially affected vehicle.

The reason for this recall:

Victory engineering has determined that, in certain circumstances, some Cross Country, Cross Country Tour, Cross Roads, Magnum and Hard Ball models may experience damage to the rear brake line. Motorcycles experiencing prolonged misfire conditions may produce increased catalytic converter temperatures causing the retention clip securing the rear brake line to melt. In extreme cases, the retention clip may melt onto the catalytic converter, increasing the risk of brake line damage.

What Victory Motorcycle and your dealer will do:

Victory Motorcycle issued a *Safety Recall Bulletin* to all Victory dealers, with instructions required to improve the brake line routing. The repair should take about one hour to perform and will be free of charge.

What you should do:

Contact your authorized Victory dealer to schedule an appointment to have the bulletin repair performed. Do not attempt the procedure yourself. The procedure must be done only by an authorized Victory dealer.

If you have questions or if you need more information:
