REMINDER NOTICE

IMPORTANT SAFETY RECALL See Enclosed VIN List

Subject: FCCC Bus Chassis Fuel Line Interference

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

This is a follow up to a previous communication. Our records indicate that your vehicle has not yet had this recall performed. Please make arrangement to have this repair done as soon as possible. If it has been completed, please disregard this letter.

Daimler Trucks North America LLC (DTNA), on behalf of its wholly owned subsidiary, Freightliner Custom Chassis Corporation, has decided that a defect that relates to motor vehicle safety exists on specific Freightliner Custom Chassis B2 school bus chassis (Thomas Built Buses Saf-T-Liner C2) manufactured August 23, 2011, through September 29, 2017.

On certain vehicles, a propane fuel line may be in close proximity to the transmission yoke, and/or at the cross member behind the rear axle. If improperly routed, the line may contact the yoke and/or cross member, increasing the potential for a fuel leak. A fuel leak in the presence of an ignition source may increase the risk of a fire.

The fuel line will be rerouted for proper clearance.

Please contact an authorized Daimler Trucks North America dealer to arrange to have the Recall performed and to ensure that parts are available at the dealership. To locate an authorized dealer, go to www.Daimler-TrucksNorthAmerica.com. On the menu tab, select "Contact," scroll down to "Find a Dealer," and select the appropriate brand. The Recall will take approximately one to two hours, depending on the repair, and will be performed at no charge to you.
