Dear Audi Owner,

What is the issue? The aluminum trim on the front and rear door speaker covers can come loose. Loosened trim may bend away from the speaker cover and could expose sharp edges. Injury (such as a cut or puncture) could occur if someone came into contact with one of these sharp edges.

What will we do? To correct this defect, your authorized Audi dealer will replace the aluminum trim on the affected door speakers. This work will take about an hour to complete and will be performed for you free of charge.

What should you do? Please contact your authorized Audi dealer without delay to schedule this recall repair. For your convenience, you can also visit www.audiusa.com and click on the “Find a Dealer” link to locate a dealer near you and schedule this service.

Precautions you should take Due to the very sharp edges on the aluminum trim, only an authorized Audi dealer should remove it from the speaker covers. Owners should use extreme caution around the speaker trim until the recall has been performed and should NOT attempt trim removal on their own.

Lease vehicles and address changes If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten (10) days of receipt.
