Dear FIRSTNAME LASTNAME,

Reason for notice: Mitsubishi Motors North America, Inc. (MMNA) has decided that a defect which relates to motor vehicle safety exists in certain 2014-2018 Mirage vehicles. The self-diagnostic function used by the internal acceleration sensor in the SRS-ECU may misinterpret vibration caused by severe road conditions and/or driving on a flat tire to be a malfunction in the SRS-ECU. If this occurs, the SRS warning lamp will illuminate and none of the seven airbags available in the vehicle will deploy in the event of a crash, increasing the risk of injury or death in a crash.

What you should do: Please contact your local Mitsubishi Motors dealer and schedule an appointment to have the SRS-ECU reprogrammed with countermeasure software. When you bring your vehicle in, please show the dealer this letter. If you misplace this letter, the dealer will still perform this repair for your vehicle, free of charge.

What your dealer will do: The dealership will reprogram the SRS-ECU software with countermeasure software.
