IMPORTANT SAFETY RECALL

Front Door Impact Pressure Sensor

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain [2018 MY (VF) RAM ProMaster] vehicles equipped with supplemental side airbags which utilize front door impact pressure sensing.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The front door impact pressure sensors on your vehicle ^[1] may have been fractured during installation. A fracture of the sensor housing could, in some instances, compromise the integrity of the sensor retention or gasket seal to door inner. **This issue may increase the risk of injury to front seat occupants during certain side impact crashes if sensor retention or gasket seal to door inner is not maintained.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will replace both front door pressure sensors and secure the sensors with newly specified rivets. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit. Your time is important to us; please be aware that these steps may require more time. The estimated repair time is two hours. We recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.
