This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Midwest has decided that a defect which relates to motor vehicle safety exists in certain Mercedes Benz Sprinter Vans and Dodge Promasters converted between June 1, 2014 and October 30, 2017

THE PROBLEM:

These extinguishers may become clogged, preventing the extinguisher from discharging as expected or excessive force may be needed to activate the extinguisher. Additionally, in certain models, the nozzle may detach from the valve assembly with enough force that it could cause injury and also render the product inoperable.
