

Safety Recall T53 / NHTSA 17V-543

Certification Label

Models

2017 - 2018 (KL) Jeep® Cherokee

Subject

The certification label on about 22,000 of the above vehicles may be missing the tire and rim size and includes the Passenger Car, rather than the Multi-Purpose Vehicle (“MPV”), safety statement. The omission of the rim size may lead to an incorrect tire and rim combination being installed on the vehicle which may increase the likelihood of a crash without prior warning.

The condition above fails to conform to the requirements of Federal Motor Vehicle Safety Standard (FMVSS) No. 110 - Tire selection and rims and motor home/recreation vehicle trailer load carrying capacity information for motor vehicles with a GVWR of 4,536 kilograms (10,000 pounds) or less.

Repair

A new certification label must be installed.

New certification labels are being mailed directly to dealers for unsold units and to all vehicle owners known to FCA with the Owner Notification letter.

The owners are requested to install the label themselves or if preferred, to arrange for dealer installation of the owner-supplied label without charge.

Instruction

Refer to the Dealer Instructions for Safety Recall T53 Certification Label posted on DealerConnect Recall Resources Recall Central and TechConnect.
