April 2018 - Renotification**

Dear Subaru Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

SUBARU OF AMERICA, INC. has decided that a defect, which relates to motor vehicle safety, exists in certain 2005-2009 model year Legacy and Outback vehicles equipped with a non-desiccated Takata-sourced passenger side frontal air bag containing the propellant Phase Stabilized Ammonium Nitrate.

You received this notice because our records indicate that you currently own one of these vehicles.

**DESCRIPTION OF THE SAFETY DEFECT AND SAFETY HAZARD**

The affected vehicles are equipped with a Takata-sourced passenger side frontal air bag that may be susceptible to moisture intrusion. Over time, this could cause the inflator to explode when the passenger's frontal air bag deploys in a crash. **If the inflator explodes, sharp metal fragments could strike vehicle occupants, potentially resulting in serious injury or death.**

***Parts are available.***

**WHAT YOU SHOULD DO**

You should immediately contact your Subaru retailer (dealer) for an appointment to have the front passenger air bag inflator replaced with a new one, free of charge. To minimize your inconvenience while the repair is being performed, please ask your retailer for alternative transportation options.

***Until this repair is performed, do not allow passengers to ride in the front passenger seat.***

**HOW LONG WILL THE AIR BAG INFLATOR REPLACEMENT TAKE?**

The time to replace the front passenger air bag inflator is approximately one hour and 48 minutes. It may be necessary to leave your vehicle for a longer period of time on the day of your scheduled appointment. Please present this letter to your Subaru retailer at the time this repair procedure is performed.

**CHANGED YOUR ADDRESS OR SOLD YOUR SUBARU?**
