**SAFETY RECALL NOTICE**  
This is an important Safety Recall.  
The remedy will be performed at no charge to you.  
Recall: **XXX-XX** NHTSA ID: **XXX-XXX**

**Date (Month and Year) – RENOTIFICATION NOTICE**

**Dear Subaru Owner:**

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

SUBARU OF AMERICA, INC. has decided that a defect, which relates to motor vehicle safety, exists in certain 2003-2014 model year Legacy and Outback vehicles, 2003-2006 model year Baja vehicles, 2006-2014 model year Tribeca vehicles, 2009-2013 model year Forester vehicles, 2004-2011 model year Impreza vehicles, 2004-2014 WRX (including STI) vehicles equipped with a non-desiccated Takata-sourced passenger side frontal air bag containing the propellant Phase Stabilized Ammonium Nitrate.

You received this notice because our records indicate that you own one of these vehicles and have not had this urgent safety recall repair performed yet.

**DESCRIPTION OF THE SAFETY DEFECT AND SAFETY HAZARD**

The affected vehicles are equipped with a Takata-sourced passenger side frontal air bag that may be susceptible to moisture intrusion. Over time, this could cause the inflator within the air bag to explode when the passenger's frontal air bag deploys in a crash. **If the air bag inflator explodes, sharp metal fragments could strike vehicle occupants, potentially resulting in serious injury or death.**

**WHAT SUBARU WILL DO**

Subaru will replace the front passenger air bag inflator in your vehicle with a new one, at no charge to you.

**WHAT YOU SHOULD DO**

You should immediately contact any authorized Subaru retailer (dealer) for an appointment to have this repair performed for free. To minimize your inconvenience while the repair is being performed, please ask your retailer for alternative transportation options.

***Until this repair is performed, do not allow passengers to ride in the front passenger seat.***

If you are not the only driver of this vehicle, please advise all other drivers and passengers of this important information.

**HOW LONG WILL THE AIR BAG INFLATOR REPLACEMENT TAKE?**

The time to replace the front passenger air bag inflator ranges from less than one hour to approximately three hours, depending on the model. Your retailer can provide you with an estimate of the overall time needed for this service visit, as it may be necessary to make your vehicle available for a longer period of time.

**OWNER INFORMATION**

Government regulations require that recall notifications be sent to the last known owner of record. That information is based primarily on state registration and title data. If you are a lessor of this vehicle, federal regulations require you to forward this notice to your lessee within ten days.

If you have moved or sold your vehicle, please go to <https://www.subaru.com/support/customer-support.html> to send us your information.
