Dear

What is the reason for this notice?

Our records indicate that an URGENT SAFETY RECALL has not been completed on this vehicle; refer to the address card for the affected VIN (vehicle identification number). Some 2018 model year Odyssey vehicles fail to conform to the requirements of Federal Motor Vehicle Safety Standard, No. 208, Occupant crash protection. These vehicles may have third row center seat belt buckles that may not latch properly. In the event of a crash, an unlatched seatbelt may increase the risk of injury to the seat occupant.

What will Honda do?

The dealer will inspect and, if necessary, replace the third row seat belt. This inspection and possible repair will be completed for **FREE**.

Please call any authorized Honda dealer and make an appointment to have your vehicle inspected and, if necessary, repaired for **FREE**. Once you make an appointment for your vehicle, be advised that the total inspection and replacement process may take approximately 30 minutes. However, your dealer can provide you with a better estimate of the overall time for this service visit, as it may be necessary to make your vehicle available for a longer period of time. If you are not the only driver of this vehicle, please advise all other drivers and passengers of this important information.

We apologize for any inconvenience this safety recall may cause you.

Sincerely,

American Honda Motor Co., Inc.
