URGENT BATTERY SENSOR RECALL

URGENTE RETIRO DE SEGURIDAD DEL SENSOR DE LA BATERIA

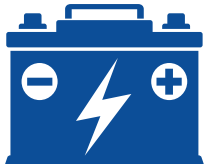

CALL NOW FOR A FREE REPAIR THAT CAN SAVE A LIFE.

LLAME AHORA PARA UNA REPARACIÓN GRATUITA QUE PUEDE SALVAR UNA VIDA.

CALL 1.844.758.9245

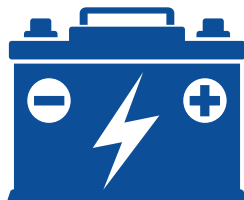

THIS SAFETY RECALL REPAIR IS FREE.

ESTA REPARACIÓN DE RETIRO DE SEGURIDAD ES GRATIS.

Moisture entering the battery sensor could result in an electrical short and, subsequently, a fire.

JOHN SMITH
123 STREET RD
ANYWHERE, OH 12345-1234

WHY SHOULD YOU CALL?

The battery sensor case mounted on top the 12V battery may have gaps that could allow for moisture to enter the sensor. If moisture containing road salt enters the battery sensor, **it could result in an electrical short and, subsequently, a fire.** The charging system indicator may illuminate in the Multi-Information Display when a problem is detected with the battery sensor prior to the time that a short may occur.

The dealer will replace the battery sensor on your vehicle for **FREE**.

CALL NOW TO SPEAK WITH OUR RECALL TEAM
