**THIS SAFETY RECALL REPAIR IS FREE.**

ESTA REPARACIÓN DE RETIRO DE SEGURIDAD ES GRATIS.

If the seat tips forward during braking,  
it can increase the risk of injury.

JOHN SMITH  
123 STREET RD  
ANYWHERE, OH 12345-1234

## RECALL SUMMARY

Honda (American Honda Motor Co.) is recalling certain 2011-2017 Honda Odyssey vehicles. The second row outboard seats can slide sideways to one of two positions. If a seat is placed between either of the two positions when attaching the seat to the vehicle floor, the seat will not latch properly to the seat striker, allowing the seat to tip forward unexpectedly during braking.

## THE PROBLEM

If the seat tips forward during braking, it can increase the risk of injury.

## THE FIX

Honda will notify owners, and dealers will install a bracket to the second row outboard floor strikers, free of charge.
