NHTSA RECALL 17V-144

Dear Nissan Versa Sedan owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety, exists in certain Model Year 2012 Nissan Versa Sedan vehicles. Our records indicate you own or lease a Nissan vehicle subject to this recall as identified by the Vehicle Identification Number (VIN) on the inside of this notice.

Reason for Recall

Certain Model Year 2012 Nissan Versa Sedans may have been equipped with side and curtain air bag side impact sensor connector pins that may degrade over time. If this condition is present and a vehicle door is slammed, it may increase the risk of the curtain air bag, seat-mounted air bag and seat belt pretensioner deploying unexpectedly; which could cause injury to a passenger seated inside the vehicle.

What Nissan Will Do

Nissan is currently awaiting parts to remedy affected vehicles. Nissan anticipates having parts available in the fall of 2017 and will send you a second letter, when parts are available, asking you to bring your vehicle to a Nissan dealer for the remedy at that time.
