**Compliance Recall Notice 17C06 / NHTSA Recall 17V-225**  
**Aviso de Revisión de Cumplimiento 17C06**

2017 F-250 Ford Truck  
Your Vehicle Identification Number (VIN):

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that your vehicle, with the VIN shown above, fails to conform to Federal Motor Vehicle Safety Standard (FMVSS) 102 Transmission Shift Position Sequence, Starter Interlock and Transmission Braking Effect, and FMVSS 114 Theft Protection and Rollaway Prevention.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

**What is the issue?** Your vehicle could roll away after the transmission shift lever is placed in Park because it may have been built with a damaged park rod actuating plate. If the parking brake is not applied, vehicle movement may occur without warning, increasing the risk of injury or crash.

**What will Ford and your dealer do?** Ford Motor Company is working closely with its suppliers to produce parts for this repair. When parts become available, Ford Motor Company will notify you via mail to schedule a service appointment with your dealer for repairs to be completed free of charge (parts and labor). Parts are anticipated to be available by June 2017.

**What should you do?** **Until your vehicle is repaired, make sure the parking brake is applied whenever the transmission shift lever is in the Park position.**  
When parts are available, Ford Motor Company will send a letter to inform you that parts are available and to contact your dealer to schedule a repair.

**What should you do?
