This Notice Applies To Your Vehicle, Vehicle Identification Number:

Dear Maserati Customer:

This notification is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Maserati S.p.A. and Maserati North America has decided that a defect that relates to motor vehicle safety exists in model year 2015, 2016 and 2017 Maserati Quattroporte vehicles, equipped with the 3.8 liter V8 engine.

Maserati S.p.A. has determined that the above described vehicles were manufactured with a low-pressure fuel pump resistor that could potentially fail when the operative current reaches the maximum allowed by the resistor; in that case the resistor failure comes as the result of cycle time and temperature fatigue. If the resistor fails, the low-pressure pump will stop working due to an open circuit (resistor failure) and without the fuel pump working, the engine will lose power and eventually stall, increasing the risk of a crash.

Maserati S.p.A. is currently in the process of obtaining the necessary components for the recall remedy, which should be available by December 2017. The proposed remedy is a new fuel pump resistor cable assembly. Once the remedy is available, Maserati will contact you by mail, with a recall notice advising you to contact your dealer to schedule the free recall repair.

IMPORTANT SAFETY RECALL INFORMATION

Once you receive our follow-up recall notification in the mail we ask you to contact any Authorized Maserati Dealer in order to arrange for this recall action to be performed to your automobile.

Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten working days. If you no longer own this vehicle or your address has changed, **please complete the enclosed prepaid yellow card and return it to Maserati North America, Inc.**

We apologize for any inconvenience this may cause you.

Sincerely,

Maserati Vehicle Safety and Regulatory Compliance
