

# URGENT SAFETY RECALL NOTICE

We appreciate your patience while waiting for a remedy to become available.

Your [Model Year] [Vehicle Description] requires an urgent Alternator repair.

Schedule your FREE repair NOW by calling your Chrysler, Jeep®, Dodge or RAM dealer.

Recall notice issued to:  
**[First Name] [Last Name]**  
Vehicle information:  
**VIN [VIN]**  
**[Vehicle Description]**  
Recall information:  
**T36/NHTSA 17V-435 Alternator Diode Thermal Fatigue**

*If you no longer own this vehicle, please help us contact the new owner so he or she can have their vehicle repaired as soon as possible.*

## Repair Details

The alternator on your vehicle may experience diode thermal fatigue failure due to cyclical loads induced by EHPS. **When the diodes fail, the alternator will no longer supply electrical energy to the vehicle and may lead to a vehicle stall without warning, increasing the risk of a crash. Failed diodes may also develop a resistive short circuit that can result in heat, smoke and/or fire originating within the alternator.**

## How do I schedule my FREE repair?

**FCA US will repair your vehicle FREE of charge.** To do this, your dealer will replace the suspect alternator with a new alternator containing improved diodes. In addition, your dealer will require your vehicle for proper check-in, preparation and check-out during your visit. Your time is important to us; please be aware that these steps may require more time. The work will take about 2 hours to complete. However, additional time may be necessary depending on service schedules.

### Scheduling Options

1. **Contact your Chrysler, Jeep, Dodge or RAM dealer directly to schedule an appointment.**  
Mention Safety Recall T36, and have your VIN ready when calling

**If you have already had this repair completed, no action is necessary.** We sincerely apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
