Subject: Positive Crankcase Ventilation (PCV) Valve Heater and Blower Motor Wiring Recalls: Car Rental Update

As announced in this week's Part Matrix, parts for both the PCV and Blower Motor Wiring Recall repair are now available through the Fair Share Allocation (FSA) program. Parts Logistics will no longer be allocating on a VIN-Specific basis for vehicles affected by the PCV and/or Blower Motor Wiring Recalls. Therefore, we kindly ask that you order your part allotment based on your center's business requirements.

With the inclusion of the PCV and Blower Motor Wiring parts into FSA, effective July 1, 2018, the Warranty Department will **no longer accept new long-term** rentals for these Recalls.

Car rentals provided for these recall repairs on or after July 1, 2018 will only be reimbursed for a maximum of five (5) business days.

For these recalls, if your center currently has any open car rentals awaiting these repairs to be performed and the VIN-Specific parts have not arrived, please use your FSA allotment to repair these vehicles.

To ensure full and timely claim payments of your car rental reimbursement requests, please continue to email and provide all applicable forms to within two (2) days of providing the car rental to the client.

Per the DCS message released April 16th, 2018, any cases that are not in full compliance with the Enhanced Rental Car Procedure outlined in bulletins SI B64 07 17 (Blower Motor Wiring Recall) and SI B11 16 17 (Positive Crankcase Ventilation (PCV) Valve Heater Recall), the corresponding car rental claim submissions will be declined or debited.

If you have any questions or concerns, please reach out to or your Area Team.
