

UPDATE MAY 10, 2023, see warranty information for required attachments

CONDITION OF CONCERN

In the subject vehicles, continued exposure to high levels of absolute humidity may cause the driver's and/or passenger's frontal air bag inflator to explode in the event of a crash. An air bag inflator explosion could result in metal fragments striking the driver or other vehicle occupants, resulting in serious injury or death. It is extremely important to schedule this repair as soon as possible, to ensure your safety and the safety of your passengers.

The vehicle may have had temporary air bag inflators installed under Safety Recalls 9116A and/or 8315F. However, both the driver and passenger PERMANENT remedy inflators must be replaced on all customer vehicles at the same time.

SUBJECT VEHICLES: These are the same vehicles subject to Safety Recall 1917L.

Model	VIN range	Build Date Range
2004-2006 B-Series Truck	ALL (except vehicles included in 2318A)	April 17, 2003 through May 2, 2006

OWNER NOTIFICATION: Mazda notified U.S. owners January 17, 2018.

MANDATORY AIR BAG INFLATOR RETURN

All inflator part numbers can be counted and shipped together for these returns. To schedule a return, please follow instructions on MGSS under this campaign or through the Dealer Assistance Group website.
