Subject: Fifth Wheel Trailer Hitch Fasteners may Loosen

Dear Mr. Jakubowski:

This letter serves to acknowledge Keystone Automotive Operations, Inc.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

HUSKY TOWING PRODUCTS/5TH WHEEL TRAILER HITCH/9999

Mfr's Report Date: April 6, 2018

NHTSA Campaign Number: 18E-022

Components:

TRAILER HITCHES:FIFTH WHEEL ASSEMBLY

Potential Number of Units Affected: 25,000

Problem Description:

Keystone Automotive Operations, Inc. (Keystone) is recalling certain Husky Towing Products, fifth wheel trailer hitches, part numbers 31569/14-1706, and 31570/14-1707. The fasteners in the fifth wheel trailer hitch may loosen, potentially causing the jaws to unexpectedly open or preventing the jaws from being able to be unlocked.

Consequence:

If the jaws unexpectedly open, the fifth wheel trailer will not be secured to the tow vehicle, increasing the risk of a crash.

Remedy:

Keystone will notify owners, and dealers will replace the affected hardware using thread locker, free of charge. The recall is expected to begin May 18, 2018. Owners may contact Keystone customer service at 1-800-432-8063.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Keystone's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Michelle Rice who may be reached by phone at (202) 366-1060, or by email at michelle.rice@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
