Subject: Electrical Short may Result from Incorrect Wiring

Dear Ms. Geels:

This letter serves to acknowledge REV Recreation Group's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

FLEETWOOD/FLAIR/2019
HOLIDAY RAMBLER/ADMIRAL/2019

Mfr's Report Date: June 21, 2018

NHTSA Campaign Number: 18V-425

Components:

ELECTRICAL SYSTEM:WIRING

Potential Number of Units Affected: 5

Problem Description:

REV Recreation Group (REV) is recalling certain 2019 Fleetwood Flair and Holiday Rambler Admiral, model 28A, Class A motorhomes. These vehicles were manufactured with a non flexible Romex wire routed from a 120-Volt nightstand receptacle, through the traveling and stationary bed platform sections, instead of flexible sheathed SJO cable. As a result, the Romex wire may become damaged from the movement of the bedroom slide-out.

Consequence:

The damaged wiring could cause an electrical short, increasing the risk of a fire.

Remedy:

REV has repaired all of the affected Class A motorhomes while they were in dealer inventory by re-routing the wire harness to ensure that the flexible-sheathed SJO cable is routed through the traveling and stationary bed platform sections in the slide-out area, free of charge. All vehicles were repaired as of July 3, 2018. Owners may contact REV customer service at 1-800-509 3417. REV's number for this recall is 180618REV.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

Since all of the vehicles have been repaired, please submit one quarterly recall completion rate report stating a 100% completion rate.

Your contact for this recall will be Michelle Rice who may be reached by phone at (202) 366-1060, or by email at michelle.rice@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer Timian". The signature is fluid and cursive, with the first name being more prominent.
