18V-493

Subject: Axle Shaft May Disengage Causing Loss of Drive

Dear Ms. Shute:

This letter serves to acknowledge Chrysler (FCA US LLC)'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:
CHRYSLER/PACIFICA/2018

Mfr's Report Date: July 26, 2018

NHTSA Campaign Number: 18V-493

Components:
POWER TRAIN:AXLE ASSEMBLY:AXLE SHAFT

Potential Number of Units Affected: 61

Problem Description:

Chrysler (FCA US LLC) is recalling certain 2018 Chrysler Pacifica vehicles. The front axle halfshafts may have been incorrectly assembled, preventing the shaft from being properly secured to the constant-velocity (CV) joint.

Consequence:

If the axle shaft disengages from the CV joint, the vehicle will have a loss of drive or allow the vehicle to move while in the "Park" position. Either condition may increase the risk of a crash.

Remedy:

Chrysler will notify owners, and dealers will replace the left or right halfshaft assembly, free of charge. The recall is expected to begin September 14, 2018. Owners may contact Chrysler customer service at 1-800-853-1403. Chrysler's number for this recall is U80.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received FCA's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Sarah Shiver who may be reached by phone at (201) 366-7401, or by email at sarah.shiver@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
