Washington, DC 20590

August 13, 2018

Mr. Greg Gunther  
Department Manager VCA  
Mercedes-Benz USA, LLC.  
13470 International Parkway  
Jacksonville, FL 32218

NEF-150JK  
18V-513

**Subject:** Child Seat Anchor May Detach in a Crash

Dear Mr. Gunther:

This letter serves to acknowledge Mercedes-Benz USA, LLC.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

**Makes/Models/Model Years:**

MERCEDES BENZ/E400/2018

**Mfr's Report Date:** August 3, 2018

**NHTSA Campaign Number:** 18V-513

**Components:**

CHILD SEAT:VEHICLE LATCH ANCHOR

**Potential Number of Units Affected:** 39

**Problem Description:**

Mercedes-Benz USA, LLC (MBUSA) is recalling certain 2018 Mercedes-Benz E400 Cabrio and E400 4Matic Cabrio vehicles. The child seat anchoring system (ISOFIX) in these vehicles may not have been properly installed. As a result, in the event of a crash, the ISOFIX console may partially detach from the car body.

**Consequence:**

If the ISOFIX console partially detaches in a crash, it can increase the risk of injury for a child in a child seat.

**Remedy:**

MBUSA will notify owners, and dealers will inspect the ISOFIX console, and replace it if necessary, free of charge. The recall is expected to begin October 3, 2018. Owners may contact MBUSA customer service at 1-800-367-6372.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.safercar.gov](http://www.safercar.gov).

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

The information in your report suggests that MBUSA may have been aware of this issue more than five business days before filing a report with NHTSA. Specifically, vehicle production was fixed nine months ago and three months ago it was determined that a child seat may detach in a crash.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Jennifer Kruger who may be reached by phone at (202) 366-2461, or by email at [jennifer.kruger@dot.gov](mailto:jennifer.kruger@dot.gov) or through the office email at [rmd.odi@dot.gov](mailto:rmd.odi@dot.gov). We look forward to working with you.

Sincerely,

Jennifer Timian  
Chief, Recall Management Division  
Office of Defects Investigations  
Enforcement
