Description of Defect :

Description of the Defect : The Solera Smart Arm awnings can deploy with no action from the vehicle owner.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : If the trailer awning deploys while the vehicle is in motion, the awning can act like a sail and create enough force to rip the awning attachment hardware off of the vehicle. This hardware then can become a road hazard to other drivers. This could result in an accident with personal injury.

Description of the Cause : The connector in internal wiring harness of the smart arm system can allow water to enter the connection. If water enters this connection, the circuit for
