Description of Defect:

Description of the Defect: Walter Kidde Portable Equipment Inc. ("Kidde") has decided that a defect,

which relates to motor vehicle safety, exists in certain Kidde plastic-handle fire extinguishers that GM has determined may have been installed in certain 2009 – 2018 GMC Savana and Chevrolet Express vehicles, 2009 – 2014 GMC Sierra HD and Chevrolet Silverado HD vehicles, 2009 Isuzu F Series, and 2009 GMC

5000, 6000, 7000, and 8000 series vehicles. According to the Defect Information Report filed by Kidde (Recall No. 17E062000), the fire extinguishers may become clogged or require excessive force to activate. According to Kidde, in certain models, the nozzle may detach from the valve assembly with enough force that it could cause injury and render the product

inoperable.
