Address : P.O. Box 1227

Westwood NJ 07675-1227

Company phone : 18005257417

Population :

Number of potentially involved : 51

Estimated percentage with defect : 25 %

Vehicle Information :

Vehicle 1 : 2018-2019 BMW X3 xDrive30i, X3 sDrive30i, X3 M40i

Vehicle Type : LIGHT VEHICLES

Body Style : SUV

Power Train : GAS

Descriptive Information : Approximately 51 vehicles were equipped with an incompatible steering wheel.

Basis for recall population determination: Based upon supplier production information, vehicle assembly records were reviewed to determine the start date (04/26/2018) and the end date (05/02/2018) of vehicles produced with potentially incompatible steering wheels. Although specific VINs could not be identified, a date range was able to be established.

Recall component difference to non-recall component: Recall vehicles contain a steering wheel produced to specifications that are not compatible for the intended vehicle configuration.

Production Dates : APR 26, 2018 - MAY 02, 2018

VIN Range 1 : Begin :

NR

End : NR

 Not sequential**Description of Defect :**

Description of the Defect : This recall involves steering wheels of certain vehicles with the option "Active Lane Keeping Assistant." Steering wheels in vehicles with this option were equipped with sensors that may not adequately detect if a driver has their hands off of the wheel.

Chronology :

On April 30, 2018, BMW first became aware of this issue from the supplier when steering wheels, that were potentially incompatible with the vehicle option “Active Lane Keeping Assistant”, could have been available for use in vehicle production.

An engineering review was conducted to determine if these steering wheels were compatible for vehicles produced with this option. Tests were performed to assess functionality of the steering wheel in this vehicle configuration. Reviews of vehicle assembly records and supplier parts information were conducted in an attempt to specifically identify the vehicles which may have been equipped with the potentially incompatible steering wheels.

The test results concluded that, due to steering wheel sensors that were not adequate for the vehicle option “Active Lane Keeping Assistant”, the wheels were not compatible for vehicles produced with this option.

On May 30, 2018, BMW decided to conduct a voluntary recall.

BMW has not received any reports, nor is BMW otherwise aware, of any accidents or injuries related to this issue.

Description of Remedy :

Description of Remedy Program : The steering wheel will be inspected and, if necessary, replaced.

Owners will be notified by First Class mail and instructed to take their vehicle to an authorized BMW center to have the remedy performed for free. If this condition were to occur to a potentially affected vehicle prior to the recall, the remedy would be covered by the BMW New Vehicle Limited Warranty program. Therefore, reimbursement for a pre-notification remedy re Part 573.13 and Part 577.11 is not necessary.
