Revised Service Bulletin: GL1800 – Airbag Replacement

Updated February 2, 2018

Honda recently launched the final phase of the Takata airbag recall for Gold Wing; all 2006-2016 GL1800-8A (airbag type) motorcycles are now affected. [Service Bulletin GL1800 #24](#) is revised to reflect the newly affected units and an additional warranty claim template.

- Please reach out to your affected Gold Wing customers and encourage them to have their motorcycle repaired as soon as possible.
- Important: Due to the phased recall approach, please use *Unit Information* on **IN** to determine which template applies to a specific unit.

CUSTOMER DEMAND

Honda will mail the final phase of recall notification letters to customers by February 9. You can expect demand for this recall repair to increase in the coming weeks.
