	Mitsubishi Motors North America, Inc. PARTS BULLETIN
SUBJECT: SUNROOF – SAFETY RECALL CAMPAIGN	No: SF-OU-01-18
	Date: February 26, 2018
	Model: See below

PURPOSE:

This bulletin provides dealers the parts information for allocation of countermeasure parts for the sunroof safety recall.

BACKGROUND:

Due to the inappropriate polyurethane materials of the outer frame that the sunroof glass is bonded to and several contributing factors, including changes in temperature and humidity, a degradation of bonding strength could occur. When degradation of bonding strength occurs, the sunroof glass may detach from the sunroof assembly. If the sunroof glass detaches while driving, it can become a road hazard, increasing the risk of a crash.

Please reference the following safety recall campaign for recall background information:

- (a) SR-18-003 - SUNROOF

AFFECTED VEHICLES:

- Certain 2007-2010 Outlander built September 8, 2006 – November 03, 2009
- Certain 2008-2010 Lancer built January 15, 2007 – March 03, 2010
- Certain 2009-2010 Lancer Evolution built September 01, 2008 – October 30, 2009
- Certain 2010 Lancer Sportback built June 17, 2009 – October 30, 2009

IMPORTANT

Affected new or used inventory vehicles must be repaired before the vehicle is delivered. Dealers must check their inventory vehicles' VINs on the Warranty Superscreen to verify whether the vehicle is involved in this recall campaign. It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by the notification under a sale or lease until the defect or noncompliance is remedied.
