

New Safety Recall Advanced Communication – U18

FCA US LLC (FCA US) has announced a safety recall on certain 2017 model year (BU) Jeep® Renegade vehicles equipped with a 2.4L engine.

VINs identified as being involved in this campaign are currently live and searchable.
Stop sale is in effect for the above-identified vehicles.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a cracked engine oil pump housing. The crack may propagate through the housing and cause the oil pump to fail. If the oil pump fails, it may cause the engine to stall. An engine stall could cause a crash without prior warning.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to inspect and replace the oil pump if needed on all involved vehicles. Dealers will be notified of the launch of this safety recall by way of established communication methods.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
