RE: UPDATE-Safety Recall: 2001-13 Honda Multi-Model Passenger Front Airbag Inflator Kit Mis-Installation

On April 27, 2018, American Honda announced a **Stop Sale** and **Safety Recall** for a small number of model year 2001-13 Honda vehicles for concerns related to replacement passenger front airbag inflator kits that may have been incorrectly installed at Honda dealerships. **Refer to your eResponsibility report or do an iN VIN status inquiry to determine which units in your inventory are affected.**

Placeholder service bulletin 18-035, *Safety Recall: Incorrect Installation of the Takata Front Passenger's Airbag Inflator* has been revised to include parts information, warranty claim information, and repair procedures.

Do an iN VIN status inquiry to determine eligibility for any open campaigns.
