

## U65 Safety Recall Remedy Updates

Reprogram Powertrain Control Module –  
Phased Launch for Remedy

---

This communication is to inform dealers of the phased launch of the remedy for VIN's effected by Safety Recall campaign U65, Reprogram Powertrain Control Module. The remedy for all vehicles effected by Safety Recall U65 is reprogramming the PCM – parts are not required to complete this recall.

All VIN's effected by Safety Recall U65 are live, however, only certain VIN's within this total VIN population have a remedy available.

### Remedy Available NOW:

2014 - 2018 (WK) Jeep Grand Cherokee

2017 (WD) Dodge Durango

2018 (WD) Dodge Durango – Equipped with 3.6L or 6.4L Engine

2018 (WD) Dodge Durango – Equipped with 5.7L Engine

- The 2018 (WD) Dodge Durango equipped with 5.7L engine was impacted by stop sale and is eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

### Remedy NOT Available:

2014 - 2016 (WD) Dodge Durango

**IMPORTANT:** Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Dealers should also consider this requirement to apply to used vehicle inventory and should perform this recall on vehicles in for service. Involved vehicles can be determined by using the VIP inquiry process.
