Attention: All Dealer Principals

Kia Motors America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign to reprogram the Power Sliding Door (PSD) Module software logic on some 2015 -2018 MY Sedona vehicles, produced from July 21, 2014 through December 6, 2017, equipped with Power Sliding Doors which contain an automatic stop and reversal feature that is designed to reverse the movement of the door back to open when an obstruction is sensed. The original programming of the PSD Module is set to a threshold level that may not detect certain obstruction types and locations/placements. As a result, the Power Sliding Door may not reverse course in the presence of certain obstructions. If the door closes on an occupant, there is an increased risk of injury.

The Technical Service Bulletin that provides vehicle inspection and repair procedures, affected VIN production range, and warranty claim information will be posted on the Kia Global Information System (KGIS) at www.kiatechinfo.com during the week of June 11, 2018.

Your Service Manager was sent a copy of the owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of affected 2015-2018 MY Sedona vehicles.

Kia will notify the vehicle owners beginning on **June 18, 2018**.

NHTSA ADVISORY: It is a violation of Federal law for a dealer to deliver a new motor vehicle covered by this notification under a sale or lease until the defect is remedied.
