

U50 2017-18 Pacifica Manual Park Release - Parts AllocationBy **Mopar** on Friday, June 29, 2018

Mopar has been allocating parts to all dealers required for this campaign. Parts orders have been placed directly with your facing PDC and will be delivered on your normal DDS delivery. Allocations have been based on the number of VINs that are assigned to your dealership.

Parts supply is limited and dealer ordering is currently blocked. Mopar will continue to allocate parts to dealers as it is available. While you may see stock on hand at your PDC these parts are being automatically ordered for dealers.

Owner letters will begin mailing on July 9th.

Thank you for your support.
