

U50- 2017 -18 PACIFICA MANUAL PARK RELEASE (MPR) PARTS ALLOCATION

Parts supply continues to be limited to support this campaign. All dealer ordering remains blocked as Mopar continues to place orders directly for dealers for this campaign.

Parts continue to be allocated based on a fair share methodology based on VIN's assignment as soon as stock becomes available. Mopar has allocated parts (both colors) to cover your unsold dealer vehicle inventory. While you may see stock at your PDC, these parts are being automatically ordered for dealers and are being delivered via DDS.

Mopar will continue to allocate parts on a daily basis as they become available.

We appreciate your support.
