## **IMPORTANT RECALL INFORMATION #180618REV**

July 2018

**TO: ALL REV RECREATION GROUP DEALER PRINCIPALS,  
SERVICE MANAGERS AND PARTS MANAGERS**

**SUBJECT: RECALL CAMPAIGN #180618REV  
Nightstand Receptacle Wire Harness Routing**

REV Recreation Group, Inc., on behalf of its manufacturing center located in Decatur, Indiana, is requesting your assistance in conducting a voluntary recall notification campaign in accordance with the United States National Traffic and Motor Vehicle Safety Act.

REV Recreation Group, Inc., has decided that a safety defect relating to motor vehicle safety exists in certain model year 2019 Fleetwood Flair and Holiday Rambler Admiral, Model 28A, Class A motorhomes manufactured between April 26, 2018 and June 1, 2018.

We are notifying the owners of the affected units in order to correct the problem. Copies of the letters sent to owners of record are attached for your information.

### ***WHAT IS THE PROBLEM?***

On the motorhomes affected by this recall, the 120-Volt wire harness for a nightstand receptacle in the bedroom was not routed per engineering specifications. Nonflexible Romex wire, composing a portion of the 120-Volt wire harness, may have been routed through the traveling bed top section and into the stationary bed platform instead of flexible-sheathed SJO cable.

If the Romex portion of the 120-Volt wire harness was routed inside the traveling and stationary bed platform sections, it may become damaged as a result of extending and retracting the slide-out. This condition could lead to an electrical short, posing the risk of fire, which may result in property damage, injury, or death.

### ***WHAT SHOULD YOU DO?***

Owners of the above mentioned motorhomes have been asked to contact a REV Recreation Group dealer to have the described defect remedied. In the event that you are contacted by a customer, please verify eligibility by referring to the serial number range listed in the attached ***Recall Service Bulletin #180618REV*** prior to beginning repairs.

Once repairs have been completed according to ***Recall Service Bulletin #180618REV***, have the customer sign your dealership's ***Internal Repair Order***. Warranty labor claims are to be submitted electronically to REV Recreation Group. Customers will not be charged for these repairs.

If you have one of these vehicles in your inventory, you will be mailed a Safety Recall Notice for that specific motorhome. REV Recreation Group dealers are required to make repairs to stock units on dealer lots prior to sale or lease.

**Federal Law (Section 154 of the National Highway Traffic and Motor Vehicle Safety Act) of 1966 requires that: If you have received a notice of recall or failure to comply from REV Recreation Group, Inc., or any component manufacturer, you must repair or otherwise correct the defect on vehicles remaining in your inventory according to the notification before selling or leasing the vehicles. Any vehicle lessor receiving this recall notice must forward a copy of the notice to the lessee within ten days.**

Please carefully review this entire package with your parts and service staff to familiarize them with the step-by-step procedure and implement the Voluntary Recall Campaign.

Thank you for helping REV Recreation Group with its continuing efforts to maintain customer satisfaction. If you have any questions, please contact your REV Recreation Group Service Center.

Sincerely,

**REV RECREATION GROUP, INC.**
