IMPORTANT SAFETY RECALL

KZRV, L.P.

NHTSA Recall Number 18V-462
Transport Canada Recall Number 2018-424

Date: August 6, 2018

TO: KZRV Dealer

Problem

KZRV has decided that vehicles subject to this recall were built without proper sealing tape on the propane gas line for the outside kitchen. In addition, the testing to insure the propane line does not have a leak was not performed. A leak of propane gas could result in a fire or explosion resulting in personal injury or death. The propane leak detector in your travel trailer should alert you to a leak and the trailer exited immediately.

RANGE OF VEHICLES INVOLVED:

- 2018 & 2019 KZ RV Sportsmen Travel Trailers

WARRANTY REIMBURSEMENT:

A notice of this recall has been sent to affected retail owners. A copy of the Owner's letter is included for your review. They may request that you complete the repair. If so, please follow the warranty reimbursement procedure. If the unit and/or units are in your inventory, or if you are requested to perform the repair for the retail customer, please complete the advised repair and send in a warranty claim referencing this recall number for reimbursement. The time allowed for repair is 30 minutes.

SERVICE ACTION:

Perform gas test to check for the presence of a leak and repair if necessary.
