## **New Safety Recall Advanced Communication – U85**

FCA US LLC (FCA US) has announced a safety recall on certain 2018 model year (RU) Chrysler Pacifica and 2019 model year (KL) Jeep® Cherokee vehicles equipped with a 948TE 9-speed transmission.

VINs identified as being involved in this campaign are currently live and searchable.  
**Stop sale is in effect for the above-identified vehicles.**

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

**IMPORTANT:** Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

### **REASON FOR THIS SAFETY RECALL**

The transmission on 5 of the above vehicles may experience a weld failure in the carrier, which may cause the transmission to be unable to transmit engine torque to the drivetrain. A transmission that is unable to transmit engine torque to the drivetrain may result in a loss of motive power. A sudden loss of motive power can cause vehicle crash without prior warning.

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to replace the transmission assembly. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2018.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
